

Message from Director Incubation

Welcome to the YBN University Incubation Centre (IIC), where ideas transform into innovations that have the potential to change the world. In alignment with the vision set by the Ministry of Human Resource Development (MHRD) and the Innovation Cell (MIC), our centre is dedicated to fostering a culture of creativity, entrepreneurship, and research-driven solutions.

At YBN University, we believe that innovation is the cornerstone of progress. Through the IIC, we provide students and faculty with an empowering environment to explore, experiment, and develop ground-breaking ideas into tangible prototypes. Our mission is to offer an ecosystem where collaboration, mentorship, and hands-on experience drive the transformation of concepts into market-ready innovations.

Our focus is to equip the next generation of thinkers, innovators, and entrepreneurs with the tools and resources needed to succeed in the ever-evolving world of technology and business. Whether through exclusive workshops, hackathons, or global exposure, we are committed to providing our innovators with the platform to connect, learn, and grow.

I encourage you to explore the opportunities we offer and embark on a journey of creativity and excellence. Together, we can build the future of innovation and entrepreneurship.

**Dr. Anuradha Palta
Director, Incubation Desk
YBN University, Ranchi .**
