3.3.2

Workshops/seminars conducted on Intellectual Property Rights (IPR) Research methodology, Good clinical Practice, Laboratory, Pharmacy and Collection practices, Research Grant writing and Industry-Academia Collaborations during the last five years

Response:

Y.B.N. University, Ranchi, has made significant efforts in enhancing the research capabilities and academic development of its faculty and students through the organization of various workshops and seminars over the last five years. These events have focused on essential topics like Intellectual Property Rights (IPR), Research Methodology, Good Clinical Practice (GCP), Laboratory, Pharmacy and Collection Practices, Research Grant Writing, and Industry-Academia Collaborations.

Intellectual Property Rights (IPR)

Y.B.N. University has hosted seminars and workshops on Intellectual Property Rights (IPR) to educate students and faculty about patent laws, copyrights, trademarks, and the protection of innovations. Key initiatives include:

- 1.Awareness Programs: Campaigns to familiarize participants with IPR benefits, particularly for researchers, focusing on patent filing and commercialization of research.
- 2.Collaboration with Experts: Workshops with legal professionals and patent consultants to guide on managing and protecting intellectual property.
- 3.Promoting IPR Among Students: Specialized workshops encourage students to develop patentable ideas and file patents.

Research Methodology

To enhance research quality, the university has conducted workshops focused on research methodologies over the last five years:

- 1.Workshops on Research Design: These sessions covered qualitative and quantitative methods, data collection, sampling, and analysis techniques.
- 2.Training on Data Analysis Tools: The university provided training on software like SPSS, R, and MATLAB for accurate data analysis.
- 3.Advanced Research Techniques: Workshops on systematic reviews, meta-analysis, and big data analysis in collaboration with research bodies.

Good Clinical Practice (GCP)

Y.B.N. University emphasizes ethical and scientific standards in clinical research, offering seminars and workshops on Good Clinical Practice (GCP):

- 1.Ethics in Clinical Research: Discussions on clinical trial ethics, informed consent, patient confidentiality, and the role of ethical review boards.
- 2.Hands-on Training: Practical sessions on clinical trial protocols, regulatory requirements, and safety monitoring.
- 3.Collaboration with CROs: Partnerships with Clinical Research Organizations and pharmaceutical companies provided real-world insights.

Laboratory, Pharmacy, and Collection Practices

The university ensures quality standards in laboratory, pharmacy, and bio-sample collection through several workshops:

- 1.Laboratory Safety and Management: Training on lab safety, equipment handling, and sample storage according to international standards.
- 2.Pharmacy and Medication Management: Specialized sessions on drug formulation, prescription management, and patient counseling.
- 3.Bio-Sample Collection: Ethical training on sample collection, handling, and storage for research integrity.

Research Grant Writing

To support faculty and students in securing funding, Y.B.N. University has conducted workshops on research grant writing:

- 1.Workshops on Grant Writing: Sessions covering proposal writing, budgeting, methodology, and aligning objectives with funding priorities.
- 2.Fostering Research Collaborations: Emphasizing interdisciplinary collaborations and proposal development for national and international funding agencies.

Industry-Academia Collaborations

Y.B.N. University promotes partnerships between academia and industry through seminars and workshops:

- 1.Collaborative Research Projects: Industry experts discuss joint research, technology transfer, and innovation.

INCUBATION CENTRE

Research & Innovation at YBN University –Institution Incubation Centre(IIC)

In alignment with the vision set by the Ministry of Human Resource Development (MHRD), Government of India, the YBN University Incubation Centre (IIC) is dedicated to fostering a culture of innovation and entrepreneurship. The MHRD's Innovation Cell (MIC) has been established to ignite the innovative spirit among students across Higher Education Institutions (HEIs), with a focus on transforming ideas into real-world solutions. At YBN University, we are committed to empowering students and faculty to explore and develop groundbreaking innovations through hands-on experiences and research-driven initiatives.

Mission Our mission is to provide a dynamic ecosystem where students and faculty can actively engage in the innovation process, turning their creative ideas into tangible prototypes. We aim to inspire and nurture young minds by offering them the tools and resources necessary to transform their concepts into market-ready innovations while fostering collaboration and a research-oriented mindset.

Key Functions

1. Exclusive Participation in Innovation and Entrepreneurship Activities

Students and faculty involved with the IIC will have exclusive access to a range of innovation and entrepreneurship-focused events, workshops, and activities organized by MIC. These events provide invaluable opportunities for collaboration and hands-on experience in the innovation space.

2. Recognition and Reward for Innovation

Students' innovative efforts will be celebrated through recognition and rewards. Their success stories will be highlighted to inspire future innovators and entrepreneurs.

3. Networking with Entrepreneurs and Experts

Student innovators will have the unique chance to connect with a diverse group of

entrepreneurs, industry leaders, and development organizations, facilitating valuable exchanges of ideas and experiences.

4. **Mentorship and Skill Development**

Periodic workshops, seminars, and interactions with seasoned entrepreneurs, investors, and professionals will allow student innovators to receive guidance and mentorship, fostering a culture of continuous learning and growth.

5. **Showcasing Innovative Projects**

The innovative projects undertaken by our students and faculty will be prominently featured on the university's Innovation Portal, providing exposure and recognition on a larger scale.

6. **Hackathons, Competitions, and Challenges**

Regular hackathons, idea competitions, and mini-challenges, often in collaboration with industry partners, will provide students with opportunities to solve real-world problems and demonstrate their skills in a competitive environment.

7. **Encouraging Exploration of New Technologies**

Students will be encouraged to engage with and experiment using cutting-edge technologies, equipping them with the skills and knowledge to drive technological advancements.

8. **Exposure to the Global Entrepreneurial Ecosystem**

Students will have the opportunity to visit leading companies and innovation hubs, gaining insights into the latest trends and cultures surrounding entrepreneurship, fostering a global perspective on innovation.

At YBN University, we believe that research and innovation are key drivers of societal progress. The Incubation Centre is dedicated to nurturing the next generation of thinkers, innovators, and entrepreneurs by providing them with the necessary platform to explore, learn, and grow.

INCUBATION CENTER

Policy &SOP of Incubation and Research Department

The Incubation and Research Department of YBN University is dedicated to fostering innovation, interdisciplinary research, and entrepreneurship. This policy adheres to the guidelines of the National Assessment and Accreditation Council (NAAC) and the University Grants Commission (UGC) to ensure research excellence and sustainable development.

1. Vision and Mission

Vision

To establish a dynamic ecosystem for research, innovation, and entrepreneurship, enabling impactful contributions to industry and society through knowledge creation, technology transfer, and entrepreneurial ventures.

1. To promote interdisciplinary research excellence.
2. To support faculty and student-led startups through incubation facilities.
3. To establish collaborations with industry and research organizations.
4. To facilitate funding, patents, and technology transfer.
5. To contribute to sustainable and community-driven projects.
6. Ensure ethical and responsible research practices.

Mission.

The mission of the Incubation centre is to foster the growth and development of early-stage start-ups and interpret news by providing resources, mentorship and a collaborative environment to turn innovative ideas into successful sustainable businesses

- Encourage faculty and student research through grants and institutional support.
- Develop an ecosystem for startups, innovation, and entrepreneurship.
- Foster collaborations with national and international universities, industries, and funding agencies.
- Promote technology transfer, patents, and commercialization of research outcomes.
- Organize workshops, hackathons, and training programs for skill development.

- Contribute to policy-making and sustainable solutions in education, health, and environmental sectors.
- To create jobs well-done business aligning with national priorities.
- To provide cost-effective evaluated services to start-up like mentoring legal technical intellectual property related services
-

2. Governance Structure (Selection Process)

The department follows a structured governance framework to ensure compliance with NAAC and UGC standards:

- **Research and Innovation Committee (IRC):** Oversees research policies, funding and collaborations.
- **Ethics and Compliance Committee (ECC):** Ensures research integrity and ethical compliance.

3. Research & Development (R&D) Initiatives

- Establish research clusters and innovation labs in behavioural sciences, biotechnology, and green technology.
- Promote interdisciplinary research and collaborative projects.
- Encourage faculty and students to publish in high-impact journals and conferences
- Secure grants from government and private organisations (e.g., DST, CSIR, UGC, AICTE, ICSSR).
- Support PhD research across all departments of the university to enhance academic and scientific contributions.

4. Incubation & Entrepreneurship Programs

- Provide mentorship, workspace, and funding assistance to startups.
- Facilitate business model development for innovative solutions.
- Assist with patent filing and technology commercialization.
- Connect startups with investors, venture capitalists, and funding agencies.

.5.Funded Research & Consultancy Projects

- Encourage and support externally funded research projects.
- Establish an internal research grant program for patents and research.
- Provide seed funding for early-stage projects.
- Undertake consultancy projects for industries, NGOs, and government bodies.
- Address real-world societal challenges through research-driven solutions

6. Innovation & Technology Transfer

- Establish **Centers of Excellence** in cutting-edge fields.
- Promote intellectual property generation and patent filing.
- Facilitate collaborations with technology firms and research labs.

7. Community-Based Research & Social Innovation

- Implement rural development projects through Unnat Bharat Abhiyan (UBA).
- Conduct skill development workshops and social impact programs.
- Engage in eco-friendly initiatives and sustainability projects.

8. Academic & Skill Development Programs

- Organize Faculty Development Programs (FDPs), workshops, and conferences.
- Host innovation challenges, idea hackathons, and research symposiums.

9. Research Collaboration & Partnerships

- Establish Memorandums of Understanding (MOUs) with academic institutions and industries.
- Participate in global research networks and knowledge exchange programs.
- Secure industry-sponsored projects for real-world problem-solving.

10. Intellectual Property Rights (IPR) Policy

- The university retains ownership of research outputs and inventions developed using institutional resources.
- Revenue from patents and commercialized research will be shared as per university guidelines.
- Faculty and students must adhere to ethical and legal frameworks for intellectual property management.

11. Ethical Guidelines & Compliance

- All research activities must comply with institutional, national, and international ethical standards.
- Research involving human subjects requires prior approval from the Ethics and Compliance Committee (ECC).
- Plagiarism and data fabrication are strictly prohibited and subject to disciplinary action. requiring plagiarism checks before publication.

12. Monitoring & Evaluation

- Periodic review of research progress and incubation projects by the Incubation Research Committee.
- Performance assessment through Key Performance Indicators (KPIs) such as publications, patents, funded projects, and startup success rates.
- Annual report submission detailing research outcomes, collaborations, and impact.

13.. Infrastructure research facilities.

- Established dedicated research labs and provided state-of-the-art types of equipment
- Digital access to the Journal's database
- Conduct workshops, conferences, and training programs to enhance research capabilities.

14. Post Incubation

Incubation may be offered shared space on a case-by-case basis and will also actively support incubateses with branding, mentoring at academic and industry levels and networking with alumni to leverage collective knowledge. It will plan events to invite investors and provide training.

INCUBATION CENTER Incubation and Research Committee.

To ensure the efficient governance of the Incubation and Research Department at YBN University, the following committees are established. These committees will oversee research activities, innovation initiatives, incubation processes, technology transfer, and intellectual property rights (IPR) management. The formation of these committees aligns with the guidelines of the National Assessment and Accreditation Council (NAAC) and the University Grants Commission (UGC). Incubation and Research Committee

Objectives:

The IRC is responsible for promoting research excellence, interdisciplinary collaboration, and innovation at the university.

Guides startup incubation, entrepreneurship, and commercialization of research.

Manages intellectual property rights (IPR), patent filings, and technology transfer processes.

Provide academic and technical guidance to ensure high-quality research output at the university.

Oversee financial management and budgeting for research projects.

Composition:

Chairperson: Dr. (Prof) S.P. Yadav -Hon'ble Vice Chancellor

Director of Research & Development: Dr. Anuradha Palta -Assistant Professor & Director Incubation Center

Convenor: Dr. Kamal Kant Patra-Associate Prof. School of Science.

Members: Dr. Shammikesh Roy-Dean School of Legal Studies.

Dr. Aparna Sharma-Dean Academics.

Financial Officer: Dr. Arvind Kumar

Responsibilities:

- Establish research priorities and provide strategic direction.
- Monitor and evaluate funded research projects.
- Encourage faculty and student participation in research.
- Facilitate collaborations with external institutions and funding agencies.
- Evaluate and approve startup proposals for incubation.
- Facilitate industry partnerships and funding opportunities.
- Provide mentorship and business development support.
- Monitor the progress of incubated startups.
- Assist researchers and faculty in patent filing and copyright protection.
- Promote technology commercialization and licensing agreements.

Program Objective	<i>"Innovate to Elevate 2025"</i> aims to empower student entrepreneurs and early-stage startups by promoting collaboration with MSMEs. The event focuses on fostering innovation, spreading awareness of government startup schemes, and bridging the gap between academia and industry. Through expert talks, student pitches, and networking sessions, it encourages mentorship, incubation, and real-world business exposure. This initiative builds on YBN-University's past efforts to create a vibrant ecosystem that supports job creation, entrepreneurial growth, and sustainable innovation.
Program Outcome	The seminar is expected to increase awareness of MSME collaboration and government startup schemes, identify promising student startups, and strengthen industry-academia linkages. It aims to inspire young entrepreneurs, offer incubation and mentorship opportunities, and build a strong network of innovators, educators, and business leaders. Likelihood of Opening of IBC -Incubation Business Centre, in YBN University Campus

Intellectual Property Rights (IPR) Cell at YBN University

A robust Intellectual Property (IP) system plays a critical role in driving trade, commerce, and innovation at both the national and global levels. It provides a strong competitive edge and ensures the protection of unique creations and innovations. YBN University is committed to fostering an environment that promotes the generation, protection, and commercialization of intellectual property. With the goal of enhancing the university's IP ecosystem, we aim to support and nurture the intellectual assets of our academic community.

Vision:

To establish a dynamic, self-sustaining IP ecosystem at YBN University that encourages creativity and innovation, ultimately contributing to societal advancement through the effective management and protection of intellectual property.

Mission:

To provide continuous support and guidance to researchers, faculty, and students of YBN University in obtaining intellectual property rights for their groundbreaking work. Additionally, we aim to facilitate technology transfer and commercialization in alignment with the university's IPR policies.

Y B N UNIVERSITY

RAJUALATU, NAMKUM, RANCHI (Jharkhand)

Established by the Act. of Government of Jharkhand Act. 15, 2017

Gazette Notification No. 505, Dated 17 July 2017

As per Section 2(f) of UGC Act. 1956

IPR CELL BOARD

versity in obtaining intellectual property rights for their groundbreaking work. Additionally, we aim to facilitate technology transfer and commercialization in alignment with the university's IPR policies.

Core Functions and Responsibilities:

- **IPR Awareness & Guidance:**
Promoting awareness about Intellectual Property Rights and offering expert guidance to the university community on navigating IP-related matters.
- **Training & Capacity Building:**
Organizing training sessions and workshops to equip stakeholders with the knowledge and skills required for IP filing, protection, and management.
- **Innovation Assessment:**
Conducting novelty assessments to evaluate the originality and patentability of ideas and innovations within the university.
- **Encouragement of Innovation:**
Inspiring faculty, researchers, and students to engage in research and development that results in patentable inventions, fostering a culture of intellectual innovation.
- **IPR Awareness and Guidance:**
The IPR Cell works to increase awareness about Intellectual Property Rights (IPR) across the university. We help students, faculty, and researchers understand the importance of protecting their creations and guide them on how to apply for patents, trademarks, copyrights, and other intellectual property protections.
- **Patent Research and Innovation:**
We assist in researching existing patents to ensure that new inventions are original and do not infringe on existing patents. Our team helps in conducting a "novelty check" to verify if an idea is unique enough to be patented. This ensures that only innovative and original ideas are protected.
- **Creativity Support:**
The IPR Cell encourages and nurtures creativity among students and researchers. We provide a platform for individuals to explore new ideas and innovations, helping them transform their creative concepts into tangible, patentable inventions.

Gazette Notification No. 505, Dated 17 July 2017

As per Section 2(f) of UGC Act. 1956

IPR CELL BOARD

- **Plagiarism Check and Prevention:**
To ensure the authenticity and originality of academic work, the IPR Cell provides tools and support for checking plagiarism. We promote a culture of ethical research, where students and researchers understand the importance of producing original work and respecting others' intellectual property.
- **Patent Filing Support:**
We offer guidance on the entire patent filing process, helping researchers and inventors through the steps of documenting and submitting patent applications. This includes preparing the necessary documents, explaining the process, and liaising with patent offices.
- **Technology Transfer and Commercialization:**
The IPR Cell supports the transfer of technology developed within the university to industry partners for commercialization. We help connect innovators with businesses to bring their research and inventions to market, turning ideas into products or services that benefit society.
- **Training and Workshops:**
Regular workshops, seminars, and training sessions are organized to educate university members on the importance of IPR, how to protect their ideas, and how to file for patents. These sessions aim to empower individuals with the knowledge they need to manage their intellectual property effectively.
- **Collaborative Innovation:**
The IPR Cell promotes collaboration between faculty, students, and external organizations for joint research and inter-development. We encourage the sharing of knowledge and ideas while ensuring that intellectual property is properly managed through legal agreements.
- By providing these functions, the IPR Cell at YBN University aims to support innovation, protect intellectual property, and foster a culture of research and creativity that contributes to the growth of knowledge and technology. At YBN University, we are committed to support our community in maximizing the potential of their ideas while contributing to the global knowledge pool
