SPECTATOR

YBN University Bulletin

Vol.2 Issue-1

Nov-Jan 2023

From the Desk of Chief Executive Officer**Er. Deepak Kumar**

Greetings!

Education enables a person to face new challenges, achieve progress and lead a successful life. Education at YBN University is neither just about academic brilliance nor a consistent return, but an ambience where culture and human skills meet together. Recently we organised an eight days National Conference with a vision important for academicians and scholars. The enthusiasm, dedication and commitment of the organizing team spared no efforts in meeting the expectation and making the Conference a huge success. I am elate to write the message for Spectator which has completed one year with six editions , made its identity by receiving ISSN and is now stepping in the second year with its first issue.

I appreciate the work taken and accomplished by Dr. Arti Gupta, Editor-in-Chief and the Editorial Team. Also, I congratulate all for the new edition. Looking forward for more endeavours in future.

Congratulations and best wishes to all!

From the Desk of Vice- Chancellor**Prof.(Dr.) S.P.Yadav**

Greetings of the day to all!

I am delighted to note that SPECTATOR has completed one year and during this period it has evolved a lot, also, received its ISSN. I am highly impressed that Editorial Team of SPECTATOR is bringing out another issue. I extol the efforts of the Editorial Board especially Dr. Arti Gupta, Editor-in-Chief for their successful endeavour. YBN University during its short period of existence has expanded its disciplines to prepare the students to face challenges of the technologically advancing society. This has been possible only due to the dedicated effort of the faculty who create a vibrant teaching environment and are quite aware of the changes and developments. It was the dedication and assiduous efforts of all that we successfully completed eight days National Conference.

Wishing all of you a fulfilling and empowering journey ahead.

Congratulations to all!

From the Desk of Editor-in-Chief**Dr. Arti Gupta**

Dear Readers,

We are back with another issue of SPECTATOR with a renewed vigour and zest. Though the events of high importance kept us all busy but we are never too far away, not to reach our readers. SPECTATOR is growing like a plant with every edition. There is lot to look forward to. I am elated to share that SPECTATOR is now a year old , also has its ISSN. This is the first edition of second year which has engrossed in it all academic and non-academic activities of faculty and students especially the eight days National Conference held in December. I am grateful to all who have extended their enormous support and co-operation since the inaugural issue. And, I earnestly hope the same will continue forward. I also thank all readers for their keen interest towards SPECTATOR . The Editorial Board has widened and has engulfed students as ‘Student Editors’. I am thankful to them and appreciate their hard work and dedication.

We hope going through this edition is as enjoyable for you as it is for us in bringing forth to you.

So, here the Vol. 2 Issue I is in your hand. I hope you all will enjoy reading it.

As per Section 2(f) of UGC Act. 1956

Vision of YBN University

YBN University envisions to be a global university for Center of Excellence with set standards in education, research, creativity, entrepreneurship and ethical values, overcoming challenges in the service of mankind encompassing equity and productivity.

Mission of YBN University

With strong belief in the astounding future of our students, YBN University looks forward for the set goals and the actions it undertakes. The following are its key prepositions:

- To disseminate knowledge that transform students into leaders who possess the intellect, aptitude, skill and confidence to succeed in all pursuits of life.
- Develop academic programs that meet the needs of regional, state, national and global communities.
- To create a collaborative environment open to free exchange of ideas, where education, research, creativity and entrepreneurship can flourish.
- Collaborate with other educational and non-educational institutions to achieve mutual goals and expand student opportunities through internship and placements.
- Provide students/faculties with the richest possible journey of educational development in a supportive and congenial environment.

Values of YBN University:

- **Excellence:** We aim to achieve excellence in all our work, always being principled, considerate and respectful.
- **Diversity:** We value the opportunity to work, learn and develop in a community that embraces the diversity of individuals enhancing multicultural learning junctures.
- **Integrity:** Having a strong belief to act with honesty, courage and trustworthiness, we support an environment of respect among students/faculties/staffs.
- **Ethical:** Having commitment to ethical and responsible behavior in our own actions, we look forward to develop the same in our students.
- **Innovation:** We build strength through innovation into our curriculum, culture, workplace and campus creating an environment with opportunities for growth and change.
- **Resilience:** We change, adapt and transform, also are creative to meet the ever-changing needs of the University and the Society.
- **Commitment:** We sustain a deep allegiance and commitment to the interests of the region and state in which we are based, alongside our national and international efforts, ensuring relevance to all.

**MULTIDISCIPLINARY
NATIONAL CONFERENCE
ETRISG 2022**

PRESS CONFERENCE

On 8th Dec. 2022 a press conference was organised by YBN University, Ranchi at The Ranchi Press Club to make announcement for the eight days National Conference (ETRISG) which started from 9th Dec.2022 and ended on 16th Dec.2022. Er. Deepak Kumar, CEO, Dr. Brajesh Kumar Singh, Dean R & D cum Convener of National Conference, Dr. Ashish Sarkar, Dean, School of Pharmacy cum Organizing Secretary of National Conference, Dr. Chandrajeet Kumar, Controller of Examinations and Dr. Arpana Sharma, DSW from YBN University gave their eminent presence in front of numerous journalists and reporters of various newspapers and news portals. The press conference was dexterously coordinated by Mr. Amit Kumar, PRO, YBN University. Speaking to the media Er. Deepak Kumar, CEO shared that the National Conference is bringing together many intellectuals, scientists, academicians and scholars from various fields to share their knowledge. He further disclosed the members nominated in various categories and the committees made for the smooth functioning of the Conference. Lastly, he invited all media persons at YBN University campus to attend the National Conference and give a wide coverage via both print and electronic media.

NATIONAL CONFERENCE ON **MULTIDISCIPLINARY APPROACHES** **(ETRISG 2022)**

The Management and faculty of YBN University leaves no stone unturned to bring laurel to the university. In view of this, 08 days National Conference on Multidisciplinary Approaches was held in the premises of YBN University from 9th Dec. 2022 to 16th Dec. 2022. The theme of the Conference was *Emerging Trends in Research Innovations for Sustainable Growth (ETRISG 2022)*. 9th Dec. 2022 marked the inauguration of National Conference with the dignified presence of Directors, Vice-Chancellors and Scientists of Various reputed Universities across the nation.

Mr. Baidyanath Yadav, Hon'able Chancellor, YBN University inaugurated the Conference by lightening the Ceremonial Lamp along with Mr. Ramjee Yadav Chairman cum Pro-Chancellor; Er. Deepak Kumar, CEO; Prof.(Dr.) S.P.Yadav, Vice-Chancellor; Prof.(Dr.) Shree Raman Dubey, Registrar and Mr. Sanjay Tiwari, Deputy Registrar. This was followed by Saraswati Vandana and enchantment of mantras. 'Kulgeet' performed by the choir made campus vibrant with splendour and zest. Mr. Ramjee Yadav Chairman cum Pro-Chancellor in his welcome address gave a brief development of University and its future prospects. Addressing all Er. Deepak Kumar, CEO focussed to delve into new frontiers of strategy making, organizational development and innovation. Speaking to the audience Prof.(Dr.) S.P. Yadav, Vice-Chancellor said that the Conference brings together the brightest minds from various streams and is the ideal place for intellectual growth. Dr. Brajesh Ku. Singh, Dean R & D and Convenor presented the theme of the Conference in lucid manner. In his speech Dr. Ashish Sarkar, Dean- SOP and Organizing Secretary said that by organizing eight days National Conference with a vision, important for academicians, scholars and students; we are stepping forward in achieving and becoming the best.

The presence of dignitaries, an impressive line-up of scholars across the nation, the support of Convenor, Organizing Secretary, faculty, media, an array of carefully selected, well-researched and well presented papers on the subject all came together to help YBN University to admirably conclude this huge endeavour.

The conference was applauded for technical sessions besides Inaugural and Valedictory Sessions. The conference has without a shade of doubt made the academic fraternity richer. The event offered opportunities to the participating audiences to interact with academicians and scholars who deliberated upon and covered topics related to theme. The views expressed and explored on this platform by the resource persons and paper presenters made the audience rethink which we cling on to unthinkingly in our day to day life.

National Conference on Multidisciplinary Approaches was held offline that hosted many panels which were clustered in 12 Streams covering a wide range of themes and disciplines. **The Advisory Board** consisted of the following eminent dignitaries:-

- **Prof. (Dr.) Tapan Kumar Shandyl, Vice-Chancellor, Dr. Shyama Prasad Mukherjee University, Jharkhand**
- **Prof. (Dr.) Nand Kumar Indu, Ex. Vice-Chancellor, Central University of Jharkhand, Ranchi**
- **Prof.(Dr.) Ramesh Kumar Pandey, Ex. Vice-Chancellor Ranchi University, Ranchi**
- **Prof.(Dr.) S.P.Singh, Ex. Vice Chancellor, Veer Kunwar Singh, Aara University, Bihar**
- **Prof.(Dr.) R.N.S.Yadav, Ex. Scientist, ICAR**
- **Prof.(Dr.) Vishnu Priya, Director IIIT, Ranchi, Jharkhand**
- **Prof.(Dr.) Gopal Pathak, Vice Chancellor, Sarala Birla University, Ranchi**
- **Prof.(Dr.) K.P. Yadav, Vice-Chancellor, Mats University, Raipur, Chhattisgarh**
- **Prof.(Dr.) Pramod Kumar Nayak, Vice-Chancellor, AISECT University, Jharkhand**
- **Prof.(Dr.) S.P.Agarwal, Vice-Chancellor, Sainath University, Jharkhand**
- **Prof.(Dr.) G.C.Nanda, Vice-Chancellor, Netaji Subhash University, Jh.**
- **Prof.(Dr.)Savita Sengar,Vice-Chancellor, Jharkhand Rai University, Jh.**
- **Prof.(Dr.) R.K. Vajpayee, Vice-Chancellor, Capital University, Jharkhand**
- **Prof.(Dr.) J.P. Mishra, Vice-Chancellor. Ramchandra Chandravanshi University, Jharkhand**
- **Prof.(Dr.) S. Chatterjee, Vice Chancellor, RKDF University, Ranchi, Jh.**

CLOSING OF NATIONAL CONFERENCE

The eight days National Conference was concluded on 16th of Dec. 2022 with gala of memories and intellectual discussions on the topic by various experts who stepped in YBN University from across the nation. Convener of the Conference Dr. Brajesh Kumar Singh was honoured by Chief Executive Officer Er. Deepak Kumar by pinning the batch. Along with this various faculty & students were honoured by CEO who gave their best in making the Conference a great success. The closing of National Conference was enriched with rhythmic dance performance by students of all Colleges under YBN University. Though there were scintillating performances every day after the Conference, the closing marked a special programme of 'Chhau Dance' by trained professionals from Ramgarh. Words of appreciation and gratitude towards all was delivered by both Convener Dr. Brajesh Kumar Singh & Organizing Secretary Dr. Ashish Sarkar. This was followed by National Anthem. National Conference (ETRISG) 2022 ended happily leaving behind loads of knowledge & mesmerizing memories with a positive outlook towards the next one.

TABLE TALK
SPECTATOR

Mr. AMIT SHARMA
Vice President
Federation of Jharkhand
Chamber of Commerce &
Industries (FJCCI)

Mr. Amit Sharma currently working as Vice President of **Federation of Jharkhand Chamber of Commerce & Industries (FJCCI)** is a dynamic personality with multifaceted experience. FJCCI was formerly known as Chotanagpur Chamber of Commerce & Industries. The parent organization was established on 15th September, 1960. Late Shri Raibahadur Harakchand Jain was the Founder President while Late Shri Atmaram Budhia became first Hon'ble Secretary of the Chamber. Along with this, Mr. Sharma is also holding the post of Vice President of Marwari Yuva Manch, Ranchi. By profession he a businessman. He completed his Graduation from the reputed St. Xavier's College, Ranchi with Account's Honours.

Associated with many social organizations and with an empathetic behavior he loves to serve people and do charity like providing basic necessities such as food, clothing as well as shelter to the needy. Besides this, he aims at empowering the marginalised communities by making them literate and skilled so that they can find employment and ameliorate their situation.

Working with a mission and also inspiring all towards social responsibility, he says, "We can fulfill our social responsibility by donating money to an NGO. Since NGOs are non-profit organisations they rely on donations made by people. These organisations are already performing a noble act to uplift the marginalised section of the society and provide them resources. Donating money to NGOs can be one of the easiest ways to help needy people."

Let's start...

Amit : How do you manage your personal and professional life?

Mr. A. Sharma: I schedule every single minute of my day . Don't let one creep too far into the other. Know the schedules of those around you. Making the most of your time means spending that time in the most useful way possible, and it's difficult to get the most out of your time if you don't know how your time is being spent in the first place.

Tracking the hours, you spend at work and home can lead you to think that balancing your professional and personal lives is merely a numbers game. The truth, however, is that just physically being somewhere is different from truly "being" there. We've all come home from a hard day at work in a daze, and we've all come to work hazy after an exhausting night. Striking the right balance means balancing your energy, as well as your time.

Amit : What skills are required in your position on a day-to-day basis?

Mr. A. Sharma : I require Focus and Self-Control with information overloaded. Perspective taking, Communicating, Making Connections, Critical Thinking, Taking on Challenges, Self-Directed and Engaged Learning.

Amit : What's been your biggest professional challenge thus far and how did you deal with them?

Mr. A. Sharma : Yes, I had some. However, during that time I remain positive. There are times when you need to ask for help and one should not hesitate in doing that. First of all...Look at the challenge from all sides. ...Know when to delegate. ...Set small goals. ...

I faced challenges after receiving a promotion.

I deal as I briefly describe the task/situation how to hand, giving relevant details as needed, explain the actions as used to complete my task or solve the issue.

Amit : How did you meet your life partner? What was your first impression of her? How do you know she is the right one for you?

Mr. A. Sharma : I met my life partner in Jamshedpur through my sister-in-law. She is in her distant relation. The one who was first is still today, she is still superior to me and I have not been able to become worthy of her even today. Everyone moves together. Along with all the household work, she takes full care of the children. The credit for all the successful household chores goes to my wife, while I easily get the credit for all the bad things. If the life partner gives importance to the relations in the house, then the joy of heaven is found in the home itself. My life partner is sensible and cultured, has always supported me in all situations. Today we are very happy & love each others company even after 14 years of marriage. I have two sons Nikhil and Arjun.

Amit : As a member of our community, what do you think the chamber could be doing differently/better?

Mr. A. Sharma : Yes, Jharkhand Chamber can do a lot better in every field along with the economic development of the state. Showing strong willpower to the government, we should be made a participant in every development plan. Along with improving the economy, employment generation, social upliftment, etc., we get to know the ground reality in every field, based on our inputs, the government can do a lot of good work.

Amit : What is the opinion of the people of the Chamber on the problem and solution of Ranchi?

Mr. A. Sharma : Rich in nature and culture, Ranchi is still poor in terms of infrastructure. People are troubled due to lack of water and electricity in summer, water logging in rainy season, struggle for cleanliness throughout the years and traffic problem. About 22 years ago, at the time of formation of the state, there was hope among the people for the solution of the problems, which has not been fulfilled yet. During this time the city continued to expand and continues to grow. The population is also increasing, in front of which the continuous development is getting pale. The Municipal Corporation collects tax but the citizens are not getting the services as per the tax. There is a bad condition of power supply in the name of underground cabling. Announced and undeclared power cuts are emerging as a big problem. All the plans made so far for parking are proving to be insufficient. A solution has to be found for this. We have to take care of how the city looks beautiful. Policy makers need to think towards holistic development.

Amit : What thing made you grow the most, professionally?

Mr. A. Sharma : Think about your existing skills. Try to create a mental list that ranks or categorizes them based on your comfort or skill level. As you build your list, consider:

- Think about your skill set
- Areas where you succeed
- Areas where you need improvement
- Potential causes of the gaps between success and improvement
- Skills you use daily
- Skills you use rarely

Amit : How did you come to know about YBN University?

Mr. A. Sharma : YBN University is a famous university of Jharkhand. YBNU is a symbol of creativity, innovation and engagement. Mr. Ramji Yadav, Chairman of YBN University is a well-known personality, who has done and is doing incomparable work to spread education. University is doing well as every day or alternate day we come to know from the newspaper that some function or achievement is done in campus.

Amit : Please give any message to students of YBN University?

Mr. A. Sharma : At YBN University you will get quality education and learning opportunities are available to all students, coming from around the world. YBN University is also supporting their student in industrial visit & various training programmes. You ought to make full use of the inclusive quality education and learning opportunities available to you all in YBN which ensures that you, as a learner, are eventually transformed into a good human being imbued with moral and ethical values and are equipped with adequate employment skills. Therefore, you are requested to study hard so that you can become a good citizen, only then a good society and then a good country can be built.

Amit: Thank you soo... much Sir for your active participation and giving your valuable time.

Session covered by: Mr. Amit Kumar, Public Relation Officer (PRO), YBN University, Ranchi

***Talent wins games,
But teamwork and intelligence
wins championships.***

-Michael Jordan

Sumathy, Principal, Tribal College of Nursing. 'Equalize' being this year's World AIDS Day theme. It's a rallying cry to get serious about addressing disparities and doing everything we can do to end AIDS. The students took out procession from TCN to Chatakpur Village, Sidrol carrying banners and posters. Through various Skits they aroused awareness among the public regarding the theme. Sanwayee Mukherjee, NSS Member and GNM 3rd Yr. student took the lead. The programme ended with vote of thanks by Mr. Suraj Kujur, Nursing Tutor, TCN and NSS Member.

EDUCATIONAL VISIT-TCN

An educational visit is quiet important for the students of any field as it helps in explaining things to them in a practical and interesting manner. Keeping in view the same, students of different batches of Tribal College of Nursing were taken to educational visit to Deepshikha Institute and Salt Factory on 12th Jan 2023 under the able guidance and co-ordination of Prof.(Dr.) A. Sumathy, Principal, TCN.

B.Sc 3rd Sem. and GNM 2nd yr. students were taken to **Deepshikha Institute of Child Development and Mental Health, Ranchi**. They were accompanied by faculty namely Miss Prerna Srivastava and Miss Ritu Dhan. Co-ordination from Deepshikha Institute was done by Dr. Meera, Principal, Dr. Anuradha, Psychologist and Mr. Pramod Kumar, Manager cum Course Co-ordinator. The students of TCN came in contact with mentally retarded children and learnt how their development takes place by involving them in vocational training like stitching, making paper bags etc. The visit was indeed educative

B.Sc. 1st Sem. And GNM 1st yr students were taken to **Salt Factory-Bhalla Brothers, Sidrol**. They were accompanied by faculty namely Miss Smita Soreng and Miss Supriya Baxla.. Students interacted very well with the persons working there. All the queries of students were satisfied by them. Students thoroughly enjoyed the visit. It was indeed a visual treat for them.

MAKARSAKRANTI/ LOHRI

The traditional festival of Makarsakranti/ Lohri was celebrated with much enthusiasm in **Tribal College of Nursing**. The students in their traditional get-up enjoyed the day with their Principal Prof.(Dr.) A. Sumathy. From singing dancing to burning of holy fire and from kite-flying to eating Tilkut and other delicacies of the day, the students left no stone unturned to enjoy the day.

With the same zest and fervour Makarsakranti was also celebrated in **YBN College for Teacher Education** in Kawali. The students of B.Ed along with faculties under the guidance of Dr. Rajesh Kumar Srivastava, Principal, YBNCTE enjoyed the day by kite flying competition and eating varieties of traditional food.

REPUBLIC DAY

YBN University, Ranchi celebrated Republic Day (26th Jan) with great enthusiasm and fervour. The ceremony started with the hoisting of National Flag by Hon'ble Chancellor, Mr. Baidyanath Yadav of the University and recitation of National Anthem. In his speech, the Chairman, while reflecting on the historical background of Republic Day, salient features of Indian Constitution and its enshrined values of justice, equality, liberty and fraternity suggested all to find the purpose of their life by learning from the struggling life of great heroes of the nation. Er. Deepak Kumar, CEO and Prof.(Dr.) S.P.Yadav, Vice-Chancellor were present along with all faculty and students of YBN University. Students performed cultural programme highlighting their patriotism with zest and vigour. The second edition of Pharma Wisdom, quarterly magazine of School of Pharmacy was launched. Before closing, the students who bagged the prize in Central Library Quiz Competition were awarded. In the end sweets were also distributed on this auspicious occasion.

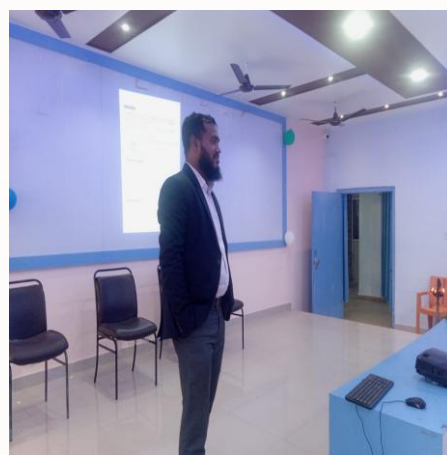

**SEMINAR/WEBINAR/CONFERENCE/
FDP/WORKSHOP**

INTERNATIONAL SEMINAR-

SCHOOL OF PARAMEDICAL

An International Seminar was organised by School of Paramedical on 25th Nov. 2022 in the premises of YBN University, Ranchi on the theme '**Dry Needling and Manipulation Techniques.**' Mr. Ramjee Yadav, Pro-Chancellor cum Chairman, YBN University graced the occasion by lightening the lamp. Dr. Pappu Kumar, Associate Dean, School of Paramedical started the session with welcome speech followed by welcome dance by students. Dr. Md. Nasaruddin, Consultant & Head, Dept. of Physiotherapy, KC Hospital & Diagnostic Centre Ltd, Cum Joint Organizing Secretary, Bangladesh Physiotherapy Association, Bangladesh Chief Speaker with a prolific experience in research and teaching shared his vast expertise in the field. Delivering his speech, he explained that if dry needling is properly inserted into the trigger point, it will cause a small muscular spasm reaction. This response is called the local convulsive response, or LTR. Prof.(Dr.) S.P.Yadav, Vice-Chancellor, YBN University highlighted the contribution of Paramedical in Health Education & Treatment. The seminar was attended by all dignitaries of YBN University along with faculty and students. Mr. Deepak Kumar, CEO, YBN University appreciated and motivated the efforts of students and faculty before giving a formal vote of thanks.

INTERNATIONAL WEBINAR- TRIBAL COLLEGE OF NURSING

Tribal College of Nursing organised an International Webinar on 26th Nov..2022 on the theme '**Fundamentals of Research**' witnessing huge attendance in online platform via Google meet under the mentorship of Prof.(Dr.)A Sumathy, Principal, Tribal College of Nursing. Dr. Karpagam Settu, Nursing Practitioner, St. Louis University, USA; Prof. (Dr.) Ramesh Chandra Rath, Principal, Swami Vivekanand Institute of Management, Bhubneshwar, Dr. Rajesh G. Konnur, Professor, Kurji Holy Family Hospital & College, Patna graced the event as Chief Speakers enriching all with their vast knowledge and prolific experience. Dr. A Sumathy, Principal, TCN chaired the session welcoming Chief Speakers, faculties and all students/participants. The discussion took place regarding the '**Research hypothesis**', '**Review of Literature**' and '**Sampling Techniques**' satisfying all the queries raised from the participants. Prof.(Dr)S.P.Yadav, Vice-chancellor, YBN University appreciating the event said that conducting program on such topics is necessary for research scholars. In the end a formal vote of thanks was delivered by Prof.(Dr.)A Sumathy, Principal, TCN after summing up the discussion.

**For those who dare to dream,
there is a whole world to win**

-Dhirubai Ambani

Marching towards excellence YBN University, Ranchi started to make its mark in the field of acquiring patents. **Dr. Kamal Kant Patra**, Associate Professor, Department of Botany, YBN University, Ranchi and Priya Dilip Lokare, Sneha Agrawal, Anshul Singh, Kul Bhaskar, Ashok Punjaji Salave, Bapu Dnyanu Kamble & Sandeep Ramrao Nikam has been granted a patent on 18th Nov. 2022. The Patent title is '**A Plant based sensing device for detecting Air Pollutants**'. The main aim behind this study is to relate to a sensing device for detecting air pollution, and more particularly relates to a plant based sensing device for detecting ozone, particulate matter, carbon monoxide, sulphur dioxide and nitrous oxide levels. Heartiest Congratulations to Dr. Kamal Kant Patra and his team for their grand achievement.

ARTICLE PUBLISHED

An article on the topic '**Study of Bio Efficacy of essential oils against the Colletotrichum Gloeosporioides causing Anthracnose disease of Mango during Nursery Conditions**' authored by **Dr. Kamal Kant Patra**, Associate Professor, Dept. of Botany, YBN University, Ranchi and his Research Team comprising of Priya Lokre, Dr. Mridusmita Dutta, Sarojmoni Sonowal, Pragyan Paramita Sinha, Dr. Devidas N. Patil and Dr. Jay B. Pandya was published in UGC Care Listed Journal of Kavikulaguru Kalidas Sanskrit University, Ramtek, Maharashtra Vol.IX Issue II(I) July 2022. ISSN No. 2277-7067
Congratulations!!!

Upliftment of
Primitive Tribes of
Jharkhand

Rajeev Ranjan Paswan

Educational level and the economic soundness are the hallmarks of the social status of any class. It broadens people outlook on themselves and the world around them. It enhances their quality of life and provide a variety of social benefits to both people and society. YBN University is keenly extending its hands for the upliftment of Scheduled Castes under the ageis of Special Central Assistance to Scheduled Caste Sub Plan (SCA to SCSP) by giving them proper education and then ensuring their proper placement.

Rajeev Ranjan Paswan, a boy of Scheduled Caste, student of School of Paramedical, YBN University successfully cleared the course and is at present working in the Blood Bank, Sadar Hospital, Ranchi as a Pathologist (Lab Incharge).

Rajeev Ranjan Paswan, son of Subhash Singh, a resident of Bakshi Band Road, Dumka, Jharkhand was the student of School of Paramedical, YBN University of 2017-19 batch. By the exemplary and commendable initiative and effort of **Mr. Dharmendra Kumar Thakur**, Incharge Paramedical, YBN University this was made possible. It was a great achievement for Rajeev as the girls and boys of Scheduled Castes despite best efforts are deprived from study. His parents thanked Mr. Ramjee Yadav, Pro-Chancellor cum Chairman, YBN University and Mr. Dharmendra Kumar Thakur, Incharge Paramedical, YBN University saying their guidance and support inspired Rajeev to achieve success and this will further inspire other children of their community. Mr. Ramjee Yadav, Chairman, YBN University said,

“We provide all assistance, guidance and support to children of Scheduled Castes of Jharkhand to pursue education and look forward for their placement. This is to uplift the family and fill the gap in society”

Heartiest Congratulations to both **Rajeev Ranjan Paswan** and **Mr. Dharmendra Kumar Thakur**, Incharge Paramedical, YBN University for their notable success.

EXPRESSIONS

Chemicals present in Synthetic / Market products of daily uses Materials and their Long-term Consequences

INTRODUCTION

Time is changing and by riding on this vehicle of change, man has travelled many stages and today he is standing in line for his living in the most advanced developing era i.e. 21st century, where there are fast moving vehicles, almost all the facilities equipped with scientific technology and telecommunication facilities are available. In such a situation, it can be said that today's time is very colourful and relaxed, but is it really so?

This question must have arisen in the mind of almost every human being. Years ago, we learned that the earth is round and that time always repeats itself. In the present context, it can be taken to mean that from where we probably started climbing the first rung of development, wherever we are today and wherever we are going in the name of development, probably again moving towards the first rung of the same development.

Now see, due to the facilities of scientific technology and telecommunication, we are called developed human beings, the same facilities are becoming a problem for all of us today. Whether it is different types of machinery or plant or it is unlimited artificial products of daily use, there is a black shadow of unknown and unfamiliar chemicals at every step. Such Harmful Chemicals are like Cold Warriors, those who are just in name but secretly keep hollowing us out. In fact, all these disruptive chemicals enter the human body mainly through two mediums, which are cosmetic-beauty products and packaged market food items, respectively. If these black shadows of chemicals are started from the things included in the cosmetics of humans (men and women) used daily, then a good base can be started. Shringar-rasa has great glory in human society and all kinds of cosmetics have an important role in maintaining this glory and illusion, which humans have adopted since about 10,000 years before Christ. Yes, keep in mind that in this glow of beauty, we will not only talk about women, because today both men and women are equal partners in maintaining their respective attraction.

TECHNICAL FACTS

Every day, from the time we wake up till we go to bed, we come across a variety of soaps and laundry products, beauty and everyday bath products such as lotions and creams, oils, anti-wrinkle creams, perfumes to remove body odors, eye drops, and eyelash tinting products, artificial blushes for the face, hair shampoo, moisturizing ingredients, various types of gel, hair growth as well as hair removal products and volatile fragrances, artificial lip balms, liquid levelling products, liquid cosmetics, nail care products, men's shaving creams, semi-liquid toothpastes, etc. By providing shelter to many types of dangerous chemicals in their own body, they continue to present a unique example of human hosting tradition. Statistics show that globally around 13,000 chemicals are used to make all these types of artificial/synthetic cosmetics and according to the International cooperation and cosmetic regulation, only 10 percent of these chemicals are considered safe for humans.

Micro-chemicals present in cosmetics such as: Benzophenones, di-benzyl methanes, para-amino benzoic acid, cinnamates, coumarin, phthal eugenol, butylate hydroxyanisole, butylate hydroxytoluene, petrolatum, paraben, sodium lauryl sulfate, etc. cause cancer in humans) are the main factors of the disease.

In particular, polyethylene glycol and butylate hydroxytoluene act as a copy of the female sex hormone oestrogen, inhibiting the activation of the male sex hormone, due to which there is a strong possibility of serious problems like impotence in men. Almost all types of cosmetics contain 96% lead, 90% beryllium, 61% thallium, 51% cadmium and 20% arsenic, which affect women's menstrual cycle and reduce their ability to conceive. In such a situation, we have to think about how much we will be able to enhance our beauty by using these artificial cosmetics.

Man-made cosmetic products also include a variety of soaps and cleaning products, which are a form of detergent. According to one record, India consumes about 40,000 tons of laundry detergent every year. Apart from this, the consumption of liquid detergents to keep clothes smelling, soft and to remove various stains is about 13,10,000 tonnes per year. Many hazardous & harmful chemicals like thiazolinones, bronopol, formaldehyde, methyl diacetic acid, nitrilon tri-acetate acid, benzalkonium chloride, ethylene diamine tetraacetate, different types of enzymes, phosphates and catalysts etc. are found in these soaps and laundry products. Such chemicals can affect not only our skin but also the kidney, liver, intestine, heart, etc. along with the new generations to come.

CONCLUSIVE NOTE

Keeping pace with the changing times, mankind today aspires to fulfil his every happiness and sorrow with the help of artificiality, be it "only" beautification or food: Modernity is everywhere. We are all passing through the chemical age of the 21st century and it is probably difficult to escape its effects. From the courtyard of our house to the kitchen and toilet, to the walls and intersections; Chemicals are everywhere. From the birth of children to the rest of the human bed, we need all kinds of chemicals every moment. But by getting entangled in this illusion of chemicals, human beings have entangled themselves in such an illusory world where there is nothing except momentary comfort and transitory illusion. It's not just the multinational companies that are at fault that are exploiting the man-made market that exists, the real mistake is of some human group who do not have financial constraints, who are walking with many options of luxury, To the same destination where everyone has to go.

The situation is serious and in such a situation all the people have to be alert, gotta wake up: for tomorrow.

Otherwise, if the empress in the form of Mahamaya is saying that the darkness in the form of stupidity should continue, then we too will have to say without any hesitation that O Mahamaya! We will allow no lapse in our stupidity to perpetuate your dark shadow forever and ever.

BE OPTIMISTIC

Go on, go on,
It is people, who say something,
Never mind, it's job of the people,
To criticize, humiliate,
Say something behind you,
Never mind, just go on.

There is numerous way to overcome,
With our problems,
Don't surrender, go on, go on,
As a human, number of hurdles,
Comes before you,
Don't surrender, go on, go on,
As a human, number of hurdles,
Comes before you,
Don't tremble, go on,
Life is nothing but hurdles,
Go on, go on.

प्रतिस्पर्धी दुनिया के लिए अपने बच्चे को तैयार करना

हमारी दुनिया एक प्रतिस्पर्धी दुनिया है और यहाँ हमारे देश में औरों की तुलना में प्रतिस्पर्धा थोड़ा ज़ादा ही है। यही कारण है कि बच्चे को बाहर की कड़ी प्रतिस्पर्धा का सामना करने के लिए तैयार रहने के चक्कर में हम उनका बचपन छीन लेते हैं जो कभी लौट कर वापिस नहीं आता।

अधिकांश घरों में बच्चों को बताया जाता है कि देखो फलना का लड़का टॉप किया है फलाना की बेटी अवल आयी है और हमारे साहबज़ादे जस्ट पास किये हैं। इतना बोलते हैं की बच्चो के दिमाग में सिर्फ नंबर ही याद रहता है और आगे चल कर वह सिर्फ पैसे कमाने में लग जाता है। हमें अपने बच्चो को सफल बनाना है तो हर छेत्र में बनाना होगा।

एक बच्चे को प्रतिस्पर्धी दुनिया के लिए तैयार करने का मतलब यह नहीं है कि उसे दूसरों की तुलना में सर्वश्रेष्ठ बनना सीखना है, इसका मतलब यह हो सकता है और होना चाहिए कि वह किसी भी स्थिति में संतुलित तरीके से रहे।

सफलता, नाम, शोहरत, पहचान, पैसा, आदि जो आप के पास है सबसे अच्छे हैं उसी में संतुष्ट होना ही सही मायने में सफलता प्राप्त करना है। हमारी इच्छाएं हमारी जरूरतें नहीं हैं। दूसरों को जो मिला है, उसकी तुलना करके हमारी चाहत पैदा होती है।

हम एक बड़ी कार या घर चाहते हैं क्योंकि दूसरों के पास बड़े हैं और हम उनके सामने खुद को छोटा महसूस नहीं करना चाहते हैं। हम अपने बच्चों पर अधिक अंक लाने का दबाव डालते हैं क्योंकि हमारे दोस्त या पड़ोसी के बच्चे हमारे बच्चे से बेहतर अंक प्राप्त कर रहे हैं।

परीक्षा का उद्देश्य यह जानना है कि आपने किसी विषय को कितना समझा है और आपको किन क्षेत्रों में सुधार करने की आवश्यकता है।

इसलिए बच्चों को अच्छे नंबर लाने पर ज़ोर देने के बजाय अच्छा इंसान बनाना ज़्यादा ज़रूरी है। जीवन में परेशानियां तो साथ-साथ चलती ही हैं। मगर बच्चों की अच्छी परवरिश के लिए हमें ही हर हाल में सकारात्मक रहना चाहिए।

हमें बच्चों को भी पॉजिटिव तरीके से सोचना और देखना सिखाना चाहिए। हमें बच्चों को यह सिखाना चाहिए कि किसी परेशानी पर रोने या उदास होने की जगह पर उसे सकारात्मक स्वरूप में लेकर पूरा करना चाहिए।

यही सकारात्मकता हमारे बच्चे को जीवन की हर चुनौती से लड़ने की शक्ति देगी। हमें अपने बच्चों को भौतिक सुख-सुविधाएं देने से ज्यादा, उनकी बातों, समस्याओं और भावनाओं को अच्छे से समझें। इसके लिए ज़रूरी है कि आप उनसे बात करें। हर विषय और मसले पर उनकी राय लें। इससे वे आपसे भावनात्मक तौर पर जुड़ेंगे। साथ ही उनके अंदर आत्मविश्वास बढ़ेगा।

ORGANIC FARMING

OBJECTIVE :

- Responsible use of energy and natural resources.
- Maintain biodiversity and protect animal welfare.
- Conserve the regional ecological balance.
- Improve soil fertility and water quality.

Organic farming is the production of crops and livestock without the use of synthetic chemicals and in-organic fertilizers.

Plants and animals grow healthy when organic gardening is practiced. The food harvested from organic gardening is safe and healthy for our human consumption. Organic farming and organic gardening are the best agricultural practices for this 21st century.

Grow organically and enjoy optimum health.

ORGANIC FARMING IN MODERN AGRICULTURE, MAXIMIZING AND SUSTAINING CROP YIELD

Organic farming promotes the use of crop rotations and cover crops, and encourages balanced host/predator relationships. Organic residues and nutrients are produced on the soil. Cover crops and composted manure are used to maintain soil organic matter and fertility.

It helps in reducing soil pollution and air pollution. Use of harmful chemical fertilizers and pesticides will poison our food cycle. India has the most organic farmers in the whole world. The only disadvantage of organic farming is it is costlier in comparison to conventional farming methods.

Organic farming, also known as ecological farming or biological farming, is an agriculture system that uses fertilizers of organic farming origin such as compost manure, green manure, and bone meal and places emphasis on techniques such as crop rotation and companion planting.

Organic farming is an agricultural method that adheres to the principles of sustainable development. It's an agricultural production management method that does not utilize pesticides, chemical fertilizers, industrial synthetic products, or genetically modified organisms.

ORGANIC FARMING FOR THE FUTURE

Organic farming is a method of crop and livestock production that involves much more than choosing not to use pesticides, fertilizers, genetically modified organisms, antibiotics and growth hormones.

Now, you may ask; how do organic crops survive without pesticides and all? Well, the answer is simple. Everything is managed with the help of our beloved Mother Nature. Various plants like Neem act as pesticides and for fertilizers, green manure, which is made out of animal and kitchen waste is used.

In recent years, we can see that organic farming is getting so much hype due to its beneficial properties which in my opinion is totally worth it.

Organic Farming has many benefits but here are a few that are considered as major ones. Organic farming is environment friendly as no fertilizers or pesticides are used in organically grown crops. Organically grown food that comes out as a result is very tasty and healthy for our important body organs as it has a higher accumulation of antioxidants than chemically grown food. It also generates a great income for many farmers as today's market has a huge demand for organically grown food.

Hence we can conclude that organically grown food should be adopted widely as it not only benefits our mother earth but also saves our important body organs like liver and kidneys from the damages that are caused by the use of chemical fertilizers.

SAVE YOUR ORGANS, GO ORGANIC

I AM A NURSE

When all of your loved ones are gone
And you're waiting for the doctor to come.
I'm the one that you're getting angry at
Because you see me coming around,
Instead of hating you or getting mad,
I try to show you how to understand.

Though I'm not a doctor to save someone's life,
I'll sit close beside you and I will listen
To your complaints, suffering, and pain
Somehow, I may take away all your fears.

Though I'm not a doctor who prescribes medicines,
I'll serve you with tender loving care.
For me, that's something I should be proud of.
Even in your slightest discomforts,
I am with you always
Making sure that you're alright,
As you're taken care with love and respect.

I am the one who believes in miracles
With my soft and gentle voice,
I bring you love and hope,
Render you my skillful care.
And show you my priceless smiles,
I am the one that comforts,
Stands and cares for you.

The one who dares to touch your hands
In your delicate moments
When you're feeling lonely and hopeless
I'm the one who lets you know
That I will stay close beside you
When there is no one to embrace you.

Yes, I am the one with white uniforms.
A nurse with a caring nature
Who has compassion and empathy for others.
Yes, I am a nurse.

जिंदगी

चार अक्षर का ये खूबसूरत सा नाम और तुझे बेहतर जीने के लिए बिता देना जिंदगी तमाम फिर भी इस दौर में कुछ न कुछ छूट ही जाता है, कभी अपनों से रिश्ते टूट जाते हैं तो, कभी पराया अपना बन जाता है।

माना तु चलती अपनी मर्जी से है, ना तू खुश रहने देती है और, ना तू किसी को दुःखी देख सकती है, हर पल तुझे जीने में अलग ही मजा आता है, कभी बहुत कुछ सीखा जाती है और, कभी कुछ भी समझ नहीं आता है।

कितना अच्छा होता न जब तुझे. काबू करना खुद के वस में होता, ना कोई अपने पीछे छूटते और, ना ही किसी को कोई कष्ट होता, हर इंसान खुद की मर्जी से. अपनी जिंदगी को बेहतर तरीके से जीता, ना किसी को मोत का खोफ होता, और ना ही किसी को कोई दर्द होता।

चल तेरे खुद के मर्जी से भी चलना मुझे बहुत रास आता है. तुझे जीते जीते ए जिंदगी इंसान बहुत कुछ सीख जाता है, जो तुझे समझ लिया उस हर एक पराव आसान लगता है. और जो तुझे न समझ पाया वो सारी उम्र ठोकर खाता है।

मेरी एक छोटी सी ख्वाहिश है तुझसे क्या तू इसे पूरा कर पाएगा ए जिंदगी थोड़ा जुल्म तू कम कर दे इतना सहन मुझसे न हो पाएगा, अगर तुझे भी चाहिए इसकी कोई कीमत तो तू ये मुझे उधार दे दे, अगर मिली मुझे दोबारा तुझे जीने का मौका तो उसकी सारी खुशियाँ तू आराम से ले ले, ए जिन्दगी थोड़ा जुल्म तू कम कर दे और थोड़ी सी खुशियाँ मुझे उधार दे दे।

मेरे गाँव की आँचल

शहर से दूर नदी के किनारे, जंगलों के बीच चलते-चलते राहों में जब तुम थक जाती तो पास की नदी तुम्हे अपने पास बुलाकर तुम्हारी प्यास बुझाए धीरे-धीरे बहती गाँते से पानी की लहर जब तुम्हारे पैरों का दीदार करे तो तुम अमृत का आभास हो ये है प्रकृत प्रकृति की गोद ये आँचल मेरे गाँव की।

तुम्हारे कदमों के नीचे दबी शीतल घास तुम्हे राजकुमार की तरह सहलाए पंड़ की टहनी तुझे उपहार स्वरूप अनेक वस्तु प्रदान करे ये है आँचल मेरे गाँव की

जब तुम नजर घुमाओ चारों तरफ तुम्हे अकेले न होने का अहसास दिलाए हरे भरे खेतों में जब पंछिया इठलाए तो देखकर तुम्हारा मन खुशी से झूम उठे ये है प्रकृति की खूबसूरती ये आँचल मेरे गाँव की

शहरों की भीड़ से दूर
 इंजनों की शोर से दूर
 जब सुबह बिना अलाम के
 सिर्फ चिड़ियों की चहचहाहट से
 नींद खुल जाय तुम्हारे सपने टूट जाए और
 तुम नगे पैर उनकी तरफ दौड़ पड़े
 ये आँचल मेरे गाँव की

हररोज की खींच खींच से जब तुम
 शाम आँगन में खटिया डाल
 नाना-नानी, दादा-दादी चाचा-चाची
 भाई-बहन, माँ -बाबा पूरे परिवार संग
 तारों को निहारों,
 तो लगे जिंदगी कितनी हसीन है
 ये है आँचल मेरे गाँव की

गुल्ली-डंडे, आँख मिचौली, लुका-छिपी, पकड़म-पकड़ाए
 खेल से हमारी दिन गुजर जाए और रात में रात्री पाठशाला में
 हम ज्ञान की गंगा में डूबकी लगाए तो आधी रात तक
 हम जागकर उसकी कविता कहे
 ये आँचल मेरे गाँव की
 पर न जाने क्या हुआ, हमारी छोटी सी दुनिया
 अब कहीं खो गई इस बदलते वक्त में मानो सबकुछ बिखर गया
 ये आँचल मेरे गाँव की

मेरा बचपन

मासूम सी सुरत, विश्वास की मूरत
 जुबा से निकले, हर बात सच सच

पल में कट्टी, पल में दोस्ती
 लंबी दुश्मनी किसी से न होती।

जरा जरा सी बात पे रोना, फिर बात मनवाकर हंसना
 और दादी से रात में घंटे, पारियों की कहानी सुनना ।

खेल में मस्ती, पढ़ाई में झपकी
 स्कूल न जाने के बहाने एक से एक थे।

वो एतवार का बेसर्बी से इंतजार करता और देर तक सोना
 लाख उठाने पर भी चादर टान कर सोना।

छट्टियां में नानी घर जाने का शोर
 और एक दिन न पढ़ने का होश ।

आसमान में हवाई जहाज जाता देख जोर से
चिल्लाना और खुशी से खूब ताली बजाना।

हवाओं में दोस्तों संग पतंगे उड़ना
किसी और की पतंग काटते ही, उसके पीछे भागना।

एक अलग ही मजा था दूसरों के बगीचे से आम चुराकर खाना
त्योहारों के दिन छूटकर गोलगप्पे और आइसक्रीम खाया करते थे।

जितने पैसा पॉकेट में होता था
सब खर्च कर दिया करते थे।

सर्दी खांसी बुखार से ज्यादा कुछ होता ही नहीं था
गिर गिर के उठते थे पर कुछ टूटता नहीं था।।

बिना दावत किसी के भी घर चले जाया करते थे
खा पी के वही से निकल आया करते थे।

बचपन का दौर होता ही ऐसा, जो हमारे आज से बिल्कुल न मिलता
बस में होता तो फिर से बचपन में लौट जाता और बेफिक्र होकर जिंदगी बिताता।

SELF-CONFIDENCE - KEY TO VICTORY

If you believe on others,
Don't let it be your weakness.
It is on us to make it a power!

Why are you afraid of what will happen in life,
Whatever happen will be an experience!
If trouble comes in the journey, make it a courage,
If someone blocks the path, the lesson is learned!

From here we have left for the new destination, it was just a page,
Develop Self-Confidence
This will lead to Victory,
The whole book is Still pending!
