

HOD's Message

Dear Students and Visitors

Welcome to the Department of Chemistry

It gives me immense pleasure and delight to extend a warm welcome to the Department of Chemistry at YBN University. As the Head of the Department, it is my honour to introduce you to our vibrant and dynamic community of students and scholars at YBN University. The chemistry department has a rich tradition of imparting high-quality teaching and research in cutting-edge thrust areas of chemical science, providing intensive research training to students and research scholars. The students have access to a library where a large collection of international and national reputed journals and textbooks are housed. Our teaching faculty and technical staff are committed to maintaining the highest standards of academic excellence, ensuring an enriching learning environment for both instructors and students alike.

We offer a range of opportunities for students to engage in hands-on learning experiences, pursue Graduate and Postgraduate programs, and contribute to leading-edge research initiatives. Our Ph.D. programs encompass various specialized fields including Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Medicinal Chemistry, Material Chemistry, Physical Chemistry, and Environmental Chemistry, attracting a diverse cohort of scholars keen on advancing scientific knowledge. We invite you to explore our offerings, enroll in our programs, and become part of our vibrant community of chemistry scholars, where endless opportunities await to shape a fulfilling career in the fascinating world of Chemistry.

Thank you and I look forward to seeing you contribute to the Department of Chemistry at YBN University.

Dr. Md. Shahid
Assistant Professor & Head
Department of Chemistry
School of Science
