NITI Aayog	Planning Commission
It serves as an advisory Think Tank.	It served as extra-constitutional body.
It draws membership from a wider expertise.	It had limited expertise.
It serves in spirit of Cooperative Federalism as states are equal partners.	States participated as spectators in annual plan meetings.
Secretaries to be known as CEO appointed by Prime- Minister.	Secretaries were appointed through usual process.
It focuses upon 'Bottom-Up' approach of Planning.	It followed a 'Top-Down' approach.
It does not possess mandate to impose policies.	Imposed policies on states and tied allocation of funds with projects it approved.
It does not have powers to allocate funds, which are vested in Finance Minister.	It had powers to allocate funds to ministries and state governments.

### Why is the Creation of NITI Aayog is Significant?

- The 65 year-old Planning Commission **had become a redundant organization**. It was relevant in a **command economy structure**, but not any longer.
- India is a diversified country and its states are in various phases of economic development along with their own strengths and weaknesses.
- In this context, a 'one size fits all' approach to **economic planning is obsolete**. It cannot make India competitive in today's global economy.

### What are the Related Concerns and Challenges?

- NITI Aayog has **no powers in granting discretionary funds to states**, which renders it toothless to undertake a transformational intervention.
- It acts as an advisory body only that advises the government on various issues **without ensuring the enforceability of its ideas**.
- NITI Aayog has **no role in influencing private or public investment**.
- **Politicization of the organization** has been in recent times.
- NITI Aayog has been transformed into a glorified recommendatory body which lacks the requisite power to bring positive change in the government's actions.

## Way Forward

- Equipping the planning body with requisite powers so that it **can effect change.**
- Allocation of adequate resources is needed.
- It can be made legally **accountable to the legislature for its inability to meet the targets.** This would bring in more accountability.
- Ensure the **planning body remains a non-partisan** institution.
- Bureaucratic inertia need to be shaken, specializing it and fixing the accountability on basis of performance.
