Challenges

- **Low frequency of meetings:** More engagement is required by the member states and instead of biennial meetings should be held annually.
- **Broad area of cooperation** leads to diversion of energy and resources.
- **Limitation in SAFTA:** The implementation of SAFTA has not been satisfactory a Free Trade Agreement confined to goods, excluding all services like information technology.
- **Indo-Pak Relations:** Escalated tension and conflict between India and Pakistan have severely hampered the prospects of SAARC.

Way Forward

- In a region increasingly targeted by Chinese investment and loans, SAARC could be a common platform to demand more sustainable alternatives for development, or to oppose trade tariffs together, or to demand better terms for South Asian labour around the world.
- SAARC, as an organisation, reflects the South Asian identity of the countries, historically and contemporarily. This is a naturally made geographical identity. Equally, there is a cultural, linguistic, religious and culinary affinity that defines South Asia.

- The potential of organisation to maintain peace and stability in the region should be explored by all the member countries.
- SAARC should be allowed to progress naturally and the people of South Asia, who make up a quarter of the world's population should be offered more people-to-people contact.
